LEVEL 1: HANDLE® INTRODUCTION COURSE

(Holistic Approach to NeuroDevelopment & Learning Efficiency)

Saturday 16th May 2015

9:30-5:30

Cassidys Hotel,

6 - 8 Cavendish Row,

Upper O'Connell St, Dublin 1

www.cassidyshotel.com

One Day Course

Begin to view yourself and others through a new lens. Maximise strategies when facing challenges in learning, behaviour, and regaining potential.

Take with you practical tools and knowledge to apply in school, work and life situations.

The HANDLE approach addresses a wide range of learning, behaviour, and developmental issues, including Dyslexia, ADD/ADHD, Autism, Brain injury, Tourette's Syndrome, Memory and organization issues, and many more. HANDLE is a systems approach that looks at the underlying root causes of these challenges. By taking into account the whole person, including developmental history, environment and nutrition, and providing gentle, simple movement-based activities to be done at home, work or school, the HANDLE approach assists the brain to create organised and efficient neural pathways.

Presented by

Rosemarie Mason, Certified HANDLE Practitioner/Instructor

Kate Mason, Certified HANDLE Screener/ Intern & Trainee Instructor
