Where: 1720 Old Springhouse Ln Ste. 300-A Dunwoody,GA 30338

Cost: \$ 99.00 includes course materials

Overview: This 6 hour introductory course was created by the HANDLE Institute to help participants to understand and enhance human capability. HANDLE is an approach to neurodevelopmental irregularities that is simple, non-invasive, empowering, non-drug. It is an approach to enhance neurological systems that are causing learning or life difficulties-including:

ADD/ADHD, Autism Spectrum, Balance & Coordination Issues, Down Syndrome, Learning Difficulties, Language Delay and more

This Course is FOR:

- Parents
- Teachers,
- Students
- Professionals
- Caregivers
- And anyone interested in learning how our sensory, motor and processing systems interact.

Included in this course:

- **The Principles that will guide you to view differences from a non-judgmental, non-drug, flexible perspective**
- **Identifying and working with the root causes, using the principle of Gentle Enhancement®**
- **Recognize signs of stress and ways to minimize it.**
- **Consideration of Internal & external factors**
- **5 activities that can be incorporated into the home, work, school environment**
